

Save space

This compact laser fax machine doubles up as a printer, copier and a scanner†. The built-in handset frees up space without the need to purchase a separate phone for your office. The compact size is packed with many features and its aesthetic design fits right into your modern office environment.

Increase productivity

Reduce the hassle with 222 contacts stored and gain quick access to frequently dialled numbers. Its fast print speed of up to 24* pages per minute (ppm) means you get your faxes and printouts quick. PC send and receive feature also means you can preview faxes before printing thus eliminating printing of junk faxes and translates to saving paper.

Save money

Send out faxes during off-peak times to avoid additional charges with the fax timer function capable of setting up to 50 timers. There is also plenty of cost cutting as you print in bulk with the optional high-yield toners, thereby reducing toner and paper expenses. With the toner save mode, you can print draft documents and save on toner.

Exceptional quality

Achieve an immaculate finish with high quality printouts of up to 2,400 x 600 dots per inch (dpi) to win your clients over and take your presentations to the next level.

Environmentally friendly

Being Energy Star compliant, the fax series has low power consumption and reduces electricity bills. It consumes only 1.5 watts when not in use with the new power saving mode. It keeps paper wastage low by viewing your documents before printing with the PC fax send and receive.

† Scanning function is only available for MFC-7290.
* Print speed of 24 pages per minute (ppm) is only applicable for MFC-7290.

* (ITU-T Test Chart #1, Standard Resolution, JBIG)
** In accordance with ISO/IEC 19752

The new Brother Laser Fax Multi-Function Centre Series with fax, print, copy and scan[†] capabilities.

Brother's new monochrome laser fax Multi-Function Centre (MFC) series can deliver outstanding results in a short time with superior technology and innovative features, performing with incredible strength and efficiency. You can rely on this compact machine for all your professional needs.

Peace of mind

With the Memory Security[#], the high security level on the series means that your documents stay confidential, preventing unauthorised access to your machine. The fax memory backup system can store up to 500[^] pages fax in memory and ensures no loss of information when the machine is out of paper.

[†] Scanning function is only available for MFC-7290.
[#] Features like sending and printing of received faxes, copying and scanning cannot be carried out when this feature is on.
[^] Only for MFC-7290. For FAX-2840, the fax memory is up to 400 pages.
