Currency Discrimination Counter **SB-9**

SB Series

SB Series are the most intelligent and reliable banknote counters which use image processing technology to recognize banknotes and to discriminate denominations.

SB-9, one of the advanced SB Series, is the world's smallest currency discriminator having 2 pockets, a stacker and a reject pocket. SB-9 has various and useful functions and keeps up with growing customers' demand from all over the world.

With modern design, full graphic LCD and user-friendly interface, SB-9 provides every operator with more comfortable and efficient working environment. Having a reject pocket, SB-9 allows operators to perform daily cash-processing job without any interruption. While counting, suspect banknotes, unrecognized banknotes, and strange notes automatically diverted to the reject pocket assuring operator continuous operation.

FEATURES
